Before/After

7 YEAR OLD - ABNORMAL GAIT

Fused Neck Rotation Improved

A 60-year-old patient had their neck fused. The patient continued to have pain and could only rotate their neck a few degrees to the left and right. After being treated with the Tennant BioModulator®, the patient stated that they could turn their neck normally and the pain was 90% reduced.

Pain Levels Reduced

A 73 year old female had low back pain, knee pain climbing steps and emotional concerns. Her pain level was at a ten on a scale of one to ten but is much better now. She uses the B&B therapy twice a day and the Tennant BioModulator® on her back for 30 minutes to relieve the low back pain.

Harpist Can Finally Play Music Again

A 50-year-old harpist was in an auto accident that caused her to lose about three inches of her right clavicle. She had gone through multiple surgeries but still had significant pain and restriction of motion in her right arm. She was treated with the Tennant BioModulator®. She then demonstrated that she could then raise her arm over her head without pain. The next day, she played the harp for the first time since her accident, a period of about three years.

Debilitating Back Pain Resolved

A 92-Year-Old Female was experiencing severe debilitating back pain for no apparent reason and was not able to sleep at night or get around during the day without the use of a walker. She had an exceptional health history without any previous health complaints and a very healthy lifestyle including; organic food and pure water, exercise and quality sleep before she had dental work resulting in two failed root canal teeth. All other health history and physical conditions were excellent and strong. The patient stated that she not only wanted to resolve the pain she wanted to eliminate the source of the pain and believed it was from two failed root-canaled teeth in the same acupuncture meridian as the area of back pain. She used the Tennant BioModulator for pain and removal of failed RCT. Her results were exceptionally fast. She reported that her pain was 100% gone 45 minutes after the dental removal of failed RCT. A few weeks later the patient reported that she was able to get her driver's license back and take a solo ten-hour road trip to a family reunion six months after the dental interception. In her case, 100% of her pain could be associated with the infection from the failed root canal.

Migraine Frequency Reduced

A 50-year-old with a 25-year history of severe migraine headaches was diagnosed by a neurologist. Headaches lasted as long as ten weeks and required 5 different prescription medications and frequent trips to the emergency room. After Tennant BioModulator therapy, migraines are now infrequent and never last more than a couple of hours.

Full Body Recovery from BioModulator® Therapy

A 63-year-old female had primary care for her aging parents and in-laws while also assisting her husband with the management of an organic farm including chickens and cows. She stated that she uses the Tennant BioModulator® ANS therapy each morning and evening. She has had much more energy since the removal of her dental infections. She has noticed that she has not had any allergic reactions since she has been completing the protocols. She has also seen a significant improvement with her endocrine system and with the removal of scars. She stated that her biggest concern for years was her gastrointestinal systems and that she has noticed an improvement in her gut function when she used the soreness oil and the BioTranducer on her scar on her stomach from hysterectomy surgery.

“Had pain in my wrist and the pain still has not returned since treatment, which is surprising because I work with my wrist and I only got one treatment.”

– Mia Nistico

“Senegy Wellness Group is the absolute BEST! Our son struggled with chronic asthma for years. After one training (health) seminar we knew the devices were the solutions we had been searching for. Not only is our son more vibrant and active now, but we have all stayed out of hospitals and doctor’s offices, as the entire family has benefited from better health! Thank you Senegy Wellness Group for these life-changing tools! We are beyond grateful to have found you!”

– AJ Beaber

“I got the Tennant BioModulator® PLUS for myself. After 50 years of playing the guitar, things began to hurt. It fixed me, and now everyone I work with wants one – bus drivers, the band, crew, stagehands!”

– Arlo Guthrie, Entertainer, Songwriter and American Legend

“I’ve been a practicing dentist for over 40 years. I, like most people, had chronic ailments that I thought were just things one had to live with. These included sleeping issues, fatigue, sinus issues, pain from injuries, constipation, and the worst being myofascial pain with accompanying trigger points in muscles. It was not until I developed arthritis in my right hand and a severe autoimmune disease that I began my search in earnest for a cure.

Traditional medicine could only treat symptoms.

I tried many things and all with limited success. It’s been a year now [using the Tennant Devices] and the improvements have been incredible. I would have never dreamed it possible to feel this great. All my ailments have melted away. I continue to improve even now. I will be forever grateful.”

– David Brewer, DDS.

The Trusted *Senergy*[®] Wellness Lineup

Choose Your Senergy Original BioModulator®:

BioModulator® Plus

- Core Pain Relief
- Voltage on a Budget
- As low as \$92/Mo with CareCredit

BioModulator® Plus2

- Proprietary Pain Relief
- Pro-Level Features, Plus-Level Pricing
- Perfect Balance

BioModulator® Pro

- Gold-Standard Pain Relief
- Industry Leading Features
- Practitioner-Level Results

Choose Your Senergy® BioTransducer:

CrystalWave® III:

- Easy Touchless Wellness
- Battery-Free Design
- PEMF, Scalar Energy

BioTransducer Pro®:

- Carbon Fiber Construction
- Red and Blue Light
- Latest Technology
