The Chakra's & Subtle Bodies

THE 7 MAIN CHAKRAS

CONNECTION

The Crown chakra focuses on our connection to the divine, wisdom, imagination and spirituality. When unbalanced we may feel confused, disconnected, depressed and experience headaches. Element: Thought

INTUITION

The Third eye chakra focuses on thought, intuition, and dreams. When out of balance you may have headaches, loose focus, judgmental, and difficulty sleeping. Element: Light

TRUTH

The Throat Chakra focuses on expression, truth, leadership, and fluid communication. When unbalanced you may feel paralyzed, insecure, have thyroid or ear issues, feel unheard. Element: Sound

LOVE

The Heart chakra focuses on compassion, love for self and others, and connection. The Heart chakra is where you can connect to your soul and send connection energy out to others. When unbalanced you may feel grief or heartache, disconnection, hopeless and rejected. Element: air

ENERGY

The Solar Plexus or power chakra focuses on your power, gut feelings, general self confidence, sense of control, and forward movement. When out of balance you may experience digestive issues, low self esteem/worth, anxiety and loss of being in control. Element: Fire

EMOTIONS

The Sacral chakra focuses on creativity, body confidence, emotional and sensual needs. You may feel lonely, emotions going everywhere, self-conscious, low libido, and lack of creative ideas when out of balance. Element: Water

INSTINCT

The Root chakra focuses your sense of security, survival, and instinct. This is also where we store money beliefs. When unbalanced you feel depleted, hopeless, anxious and fearful. Element: Earth

Be advised that an issue in one tooth socket can cross over one socket, so consider adjacent tooth-organ connections too.

How Do Emotions Manifest in the Body?

- ▶ “Chronic, unrecognized anger and resentment reemerge in our life as depression, which is anger directed against oneself. If pushed further into the unconscious, it can re-emerge as psychosomatic illnesses. Migraine headaches, arthritis, and hypertension are frequently cited examples of chronic suppressed anger.”
— David R. Hawkins, [Letting Go: The Pathway of Surrender](#)
- ▶ “We have three major ways of handling feelings: suppression, expression, and escape.”
— David R. Hawkins, [Letting Go: The Pathway of Surrender](#)

Thoughts and Emotions and how they effect us.....

- ▶ **Fight or Flight!**
 - ▶ **Cortisol**
 - ▶ **Digestions shuts down**
 - ▶ **Repair slows down**
 - ▶ **Lack of sleep – even less repair**
 - ▶ **Adrenals will do their best until they wear out – mean fatigue**

Balance the Autonomic Nervous System

- ▶ Use your biomodulator to balance your ANS – single easiest thing to do for yourself. Several times a day if needed
- ▶ Breathwork, medication, yoga, humming for nitric oxide,
- ▶ Fear and out of body?
- ▶ Get into your body fully and experience the fullness of being human.
- ▶ Foods that do not cause distress in digestion: juice cleanse, fasting, saunas, cold plunges as a possibility

Attachment

- ▶ “The greater our attachment to that which is outside of ourselves, the greater is our overall level of fear and vulnerability to loss.”
— David R. Hawkins, Letting Go: The Pathway of Surrender

Proximity

- ▶ Being near the auric field of another human will influence our auric field.
- ▶ Be very picky about who you spend time with
- ▶ Your energy is your most valuable resource – its not your time.
- ▶ Sometimes emotions that we feel are not even ours!

The Link Between Our Cells and Emotions

- ▶ Person in one room, cells harvested from the mouth on a Petrie dish in another room, both hooked up to polygraph. Showing movies with range of emotions for the the subject elicited the same response in the Petrie dish of cells.
- ▶ Fear actually causes the DNA strands to contract – making protein synthesis messy!

How Can We Release Low Vibe Emotions

- ▶ Instead of suppressing, repressing, escaping, expressing, or projecting our feelings onto other people, we can choose to surrender and let go, which simply means feeling your emotions when they arise, focusing on the physical sensations, and letting things be as it is without resistance so that the feeling can pass. E-motion
- ▶ Often these programs are repressed and we need help releasing

Biofield Tuning and Accutonics

- ▶ Biofield Tuning is a complementary and alternative medicine (CAM) technique that uses tuning forks to purportedly detect and correct imbalances in the body's energy field, known as the "biofield."
- ▶ How it Works:
- ▶ Practitioners use a set of tuning forks to scan the body for areas of resistance or dissonance.
- ▶ When a tuning fork resonates with an area of imbalance, it is believed to release energy and promote healing.
- ▶ The practitioner may also use the tuning forks to create specific patterns of vibration that can target/relieve particular issues, such as stress, pain, or emotional trauma.

- 2 Sacral: Sensuality, Sexuality, Emotion, Life Force
- 3 Navel: Creativity, Life Force, Desire
- 4 Solar Plexus: Willpower, Confidence, Self-Assurance
- 5 Heart: Connection, Compassion, Universal Love
- 6 Thyroid: Transformation, Hormones, Metabolism
- 7 Throat: Communication, Expression, Authenticity
- 8 Eye: Vision, Imagination, Visualization
- 9 Crown: Knowledge, Self-Realization, Spirituality

Scalar or Subtle Energies

- ▶ What is scalar energy? Some call in a retarded Hertzian Wave form running parallel to the source output and not perpendicular. The Vacuum, the zero point energy field
- ▶ Schumann resonance of the earth is scalar – life affirming
- ▶ Sound is scalar
- ▶ Light is scalar
- ▶ Thoughts are scalar
- ▶ Untreated Stones, Reiki, Geometry of Shape information
- ▶ Hugs, words, emotions –
- ▶ much debate at present
- ▶ Nature and Sunlight!

Scalar Cont.

How does Scalar Energy address the root cause of health issues rather than just treating symptoms?

- ▶ Scalar Energy operates at the quantum level, targeting the underlying energetic imbalances contributing to health issues. By restoring balance and optimizing cellular communication, Scalar Energy addresses the root cause, allowing for more comprehensive and lasting healing.
- ▶ Safe and non-invasive

Scalar Cont,

- ▶ “Scalar fields have a potential for increasing energy and reversing aging...”
~ Dr. Victor A. Marcial-Vega, M.D., John Hopkins Research Physician,
- ▶ "Scalar energy is intelligent. Scalar energy transcends time and space; it's non-physical. It can perform a function. So what is thinking? Thinking is a scalar wave. Cognition is created by a scalar wave". Tom Paladino

Power of Sound and Light

- ▶ Sound and the Transducer is a scalar energy source.
- ▶ scalar energy claim that it can influence biological systems at the cellular level and offer various health benefits. These claims are not supported by evidence from the scientific and medical community.
- ▶ **Enhances cellular function:** Proponents claim scalar waves can penetrate cells and "harmonize their energy fields," which they believe leads to improved cell regeneration and repair.
- ▶ **Improves cellular communication:** According to the theory, scalar energy enhances how cells communicate with each other by influencing the molecular structure of water within the body.
- ▶ **Supports the immune system:** Some believe that this energy boosts the immune system by optimizing the body's energy balance and helping it fight off pathogens.
- ▶ **Reduces inflammation and pain:** Some advocates say scalar energy can reduce inflammation and relieve pain by improving blood circulation and reducing oxidative stress.
- ▶ **Neutralizes man-made electromagnetic frequencies (EMF):** Devices that purportedly emit scalar energy are marketed with the claim that they can counteract harmful EMF from sources like cell phones and Wi-Fi.
- ▶ **Balances the nervous system:** Some believe scalar energy can promote relaxation and reduce stress by balancing the nervous system.

How Sound, Light and Intention can Heal

- ▶ High resonant vibrations of sound and light can quell dissonance in an energy field.
- ▶ The sound and light “retune” to a coherent frequency that is compatible with life
- ▶ Static or incoherent emotions in the can be adjusted to coherence in the field, giving new information of resonance and balance to the body.
- ▶ For example – anger will cause dissonance near the liver
- ▶ Fear – dissonance in the kidneys and bladder.
- ▶ You can actually hear the higher tones of fear, anxiety and anger in the field and also hear when it clears.

Transducer Amplifies the Coherence

- ▶ I found when using the transducer, The sound began to transform with much less effort with the sound.
- ▶ Now I only work with sound with the transducer
- ▶ Balance ANS first – set your nervous system in heal mode

Biofield and Energy

Healer channels energy to clear quartz crystal

Control shot

Crystal put in hand

After 1 minute

After 3 minutes

The short experiment above was to see if there was any discernible difference in the light around the clear quartz crystal when the healer concentrated on channelling energy to it. The healer kept as still as possible during the experiment. The lighting was full-spectrum tube on ceiling. All extraneous light was blocked out with a 'black-out blind at the window. The video camera was kept in same position on a tripod and was left recording during the experiment. No one else was in the room. Filtered with filter 001.

Changes seen at end of experiment: more green covering larger surface area of healer's hand. More gold in crystal and also appearing on palm and white and pink above arm. Could these changes in light be a reflection of the healing frequencies in this instance? Red energy to left side of healer has diminished - perhaps channelling the energy has balanced her field? Note more white and pink appearing above crystal and red/mauve bands under crystal moving down towards the earth.

Intuition: What is your yes and no?

- ▶ Quiet the mind with meditation or healthy music.
- ▶ What does yes feel like in your body?
- ▶ What does no feel like in your body?
- ▶ Why is this important?

Demonstration

- 
- ▶ “Eventually, we can have compassion for everyone, when we see how we all must struggle with the downside of human nature. Everyone is crippled in some area, and everyone is somewhere on the path of evolution, some ahead of us, and some behind.”
— David R. Hawkins, Power vs. Force: The Hidden Determinants of Human Behavior

- 
- ▶ In this interconnected universe, every thought we think, every emotion we feel deeply, and every action we choose to take echoes beyond the boundaries of our individual existence. We are not isolated beings in a container, but integral parts of a vast, living, breathing cosmos. We are continuously influencing and being influenced by the unseen forces that weave the fabric of reality.

Dream Your World Into Being

- ▶ Daily we journey through the realms of interconnectedness and the power of intention
- ▶ We find ourselves standing at the precipice of a new understanding, a new way of seeing our place in the universe.
- ▶ These concepts aren't just scientific curiosities; they are invitations to a deeper, more profound way of living.

Thank you and Blessings!

- ▶ Dream your world in to Being
- ▶ Create from a place of authenticity- not scarcity or fear
- ▶ Stand in the energy and emotions of where you want to be in the future – see it, feel it, experience it
- ▶ Call in your higher self for divine guidance regularly.
- ▶ Take exquisite care of yourself
